Editor's Note: From Premiere Pro up to Character Animator, same version yung isa't isa para magamit niyo sila nang sabay-sabay. For example and tested personally, mage-edit ako sa Premiere Pro, then naka pre-render na siya sa Media Encoder since same version sila, then while editing sa Premiere, lahat ng composition na gagawin ko sa AE is synced na den sa workflow ko sa Premiere. Basta search niyo lang sa YT yung pag sync ng mga projects. Late ko lang na-realize na dapat pala same version isa't isa para magamit yung full potential hihi.
